Wellness and Beauty

# Our Philosophy

The perfect complement to the surgical and non-surgical procedures, The Cosmetic Surgery Clinic is pleased to offer a full spectrum of innovative beauty treatments.

Our bespoke methods tailor individual treatments suited to your needs. Very simply, we help you find the body of your dreams. Our clinic uses only the latest beauty technology to achieve your goals. Each individualized consultation begins with a preliminary diagnostic

screening of body composition, skin and muscle tonicity. Based on your results, our wellness and beauty expert **Sola Tohme** will formulate the right therapeutic program for you and will follow up on your progress until the desired results are met.

Our Wellness & Beauty section offers a relaxing retreat with services that focus on your total health and skin care. Our specialists will help you to reduce stress, enhance beauty and restore optimum health.

The Wellness & Beauty Section offers a blend of medical and non-medical aesthetic face and body treatments in a relaxing, spa-like environment. All medical procedures are exclusively under the control and direction of licensed medical professionals and **Dr. Firas Hamdan**.

# Body Treatment

## Stress Relief Treatment

### Zen massage

This massage is the best mean to restore your vitality, dissipate your tensions and reinforce your natural capacities so you will discover the beneficial effects of wellness.

### Back therapy

Heating/healing process used since the ancient age to help the irrigation of the back tissues specially the spine sides which will lead to rebalance the nervous terminations. This protocol includes hot stones Dead Sea mud wrap and feet massage.

(Result: fatigue and stress relief.)

## Body scrub experience

An exfoliation treatment to stimulate and cleanse the skin.  
good for the body as well for the mind.

## Our specialties

### Lemon scrub

To tone and energize your body.

### AHA scrub

To rejuvenate and improve the skin conditions specially discoloration or hyper pigmentation

## Pregnancy Special Cure

Total body treatment has been carefully selected for you during this very special time. Treatment combines advanced massage techniques and adequate protocols using special oil and a heavy legs care for an ultimate relief.

# Pre and Post Recovery Treatment

## Lipo massage

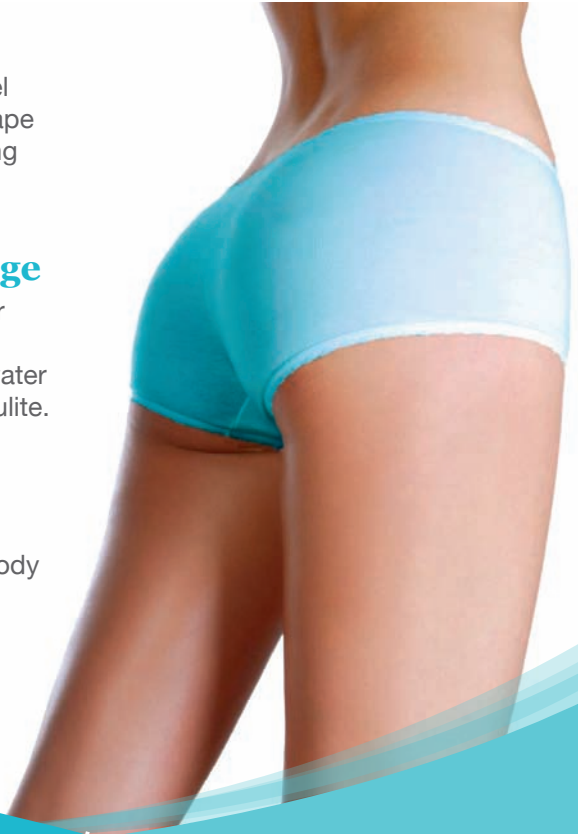

Follow up and keep in shape with this special lipo massage which will remodel your body and maintain it in a good shape by eliminating your cellulite and reducing your unwanted inches.

## Manual lymphatic drainage

This treatment is designed to drain your lymphatic system while detoxifying the whole body, highly recommended for water retention, circulation problems and cellulite.

## Tightening body sculpt

Using our precious toning oils and high massage techniques to reshape your body followed by a special collagen body to tighten and smooth your skin.

# Facial Treatment

## Post lifting treatment

This treatment has been created to maintain a lift procedure result, since it is imperative to undergo follow up sessions to drain the face from toxins and tighten it at the same time.

## Radiance cure

Specially designed to regenerate mature and dull skin, it will reduce fine lines ameliorate the skin conditions and boost the glow to reach a younger skin.

## Brightening facial

Anti pigmentation treatment that will help to restore the glow of the skin and rejuvenate the texture using advanced formulated products such as vitamin c and special brightening mask for a youthful radiance and natural beauty.

# Machines

## Venus New Life

Employs Bio Electrical Acceleration Management technology to imitate the body's Bio-Electrical process by sending pre-defined electrical pulses through the nervous system. Skin, fat, muscle and more are stimulated effectively to slim, tighten, tone, lift, shape and revitalize.

## Vela Smooth Pro

A body shaping and firming treatment that works on cellulite and circumference reduction as well as skin tightening. The secret to VelaSmooth pro is the revolutionary combination of bipolar radiofrequency, infrared light energy, plus vacuum and mechanical massage.

## **Acthyderm**

No needle Mesotherapy system , an advanced drug delivery strategy uses special electroporation impulse to act directly on the cell membrane in the deepest layers of the derma without the slightest discomfort . Applications include: Anti-aging, firming, cellulite, slimming & body sculpture, breast tone, and stretch marks.

## **E Matrix**

Uses subablative rejuvenation technology, a deep dermal heating process conducted with fractionated bipolar RF energy to offer a solution for stretch marks, acne scars, wrinkles, skin laxity, uneven skin tone, and texture irregularities.
